The Monnet Challenge

25th September 2012

▶ Challenge was to further build the linked data cloud

▶ In particular, we wanted resources in *lemon*

    ▶ See http://lemon-model.net

▶ http://sabre2012.infai.org/mlode/monnet-challenge

- ▶ Short deadline: 5½ weeks
- ▶ Targets on:
  - ▶ FrameNet/VerbNet
  - ▶ LMF $\Rightarrow$ Lemon
  - ▶ New lemon lexica for existing ontologies
  - ▶ DBPedia Wiktionary mappings

▶ Number of triples

▶ *lemon* usage

▶ Impact

Winner   DBnary (Gilles Sérasset, Study Group for Machine Translation and Automated Processing of Languages and Speech, Laboratory of Informatics of Grenoble (LIG))

Runner-up   Framenet-Sense Repository (Volha Bryl, Fondazione Bruno Kessler)

Runner-up   Heart Failure Terminology (Joseph Roumier, Centre d'Excellence en Technologies de l'Information et de la Communication, Charleroi, Belgium)

- ▶ DE-GAAP *lemon* Lexicon (Tobias Wunner, DERI Galway)
- ▶ Uby-Lemon (Judith Eckle-Kohler, University of Darmstadt)... coming in October
- ▶ X1 Project/SFB673 (Peter Menke, University of Bielefeld)... legal issues :(
- ▶ (Riccardo del Grata, Istituto di Linguistica Computazionale)

- ► We achieved 3 out of 4 strategic goals
- ► Not enough time to fix all technical legal issues
- ► Successful in growing the LLOD cloud

Should we do it again?
